The Museum of Antiquated Technology

Mark Vess

Mark Vess is the curator and founder of The Museum of Antiquated Technology, which is located at 303 High Street, Hanson, Ma. The museum has an enormous inventory of amateur radio equipment. He also has antique cars, farm tractors, radios, a bowling machine, key chains, phonographs, sewing machines, a player piano and many other antiques. The radio in the foreground is an antique 2-meter AM Heathkit. This transceiver is in perfect condition and was operational at the Special Event. Many hams know the yellow radio in the background as a “Gooney Box”. It is a 6-meter Gonset transceiver. This radio was operational during the Special Event.
